

ONSITE INDUSTRIAL HEARING TESTING

Is hearing protection a requirement in your workplace?

Are you aware that you are required to provide audiometric testing for your employees?

CorporateChoice can assist you with:

- ✓ Onsite Audiometry testing services in Gippsland and Melbourne to help you meet your Victorian WorkSafe compliance.
- ✓ Purpose built trailer incorporating a sound proof testing suite for accurate and reliable results.
- ✓ Australian industry standard software - Workplace Audiometrics.
- ✓ Can load data from previous provider to continue history and comparison of testing.

Victorian WorkCover Occupational Health & Safety Act Compliance 2007

3.2.11 Audiometric Tests

If an employer is required under regulation 3.2.4(1) (d) to provide hearing protectors to an employee, the employer must provide for audiometric testing for the employee –

- a. Within 3 months after the employee commences the work in relation to which that hearing protectors are required; and
- b. At any time when reasonably requested to do so by the health and safety representative of the designated work group of which the employee is a member; and
- c. In any event, at least every 2 years.
